

# Visual Cue Cards

The cards on the following pages were produced for use in teaching “The Ancient Greeks Speak to Us,” Level Alpha, in the School District of Philadelphia. They were produced in 1969 and reprinted in 1976.

Permission to post these cue cards was granted by the School District of Philadelphia, which holds the copyright for them. They may be downloaded and used for classroom instructional purposes. They may not be sold or exploited for profit in any way.

For each cue card, the first frame has a picture in portrait orientation. The second frame has the Greek caption in landscape orientation. This is the way the cards were originally produced. Print the frames for the cue cards you wish to use, and then photocopy them onto card stock back to back. You may wish to laminate them for longer life. You may also display the fronts and backs of the cards in your classroom.
