

Index to Homework 5 from Lecture 5.

I. The homework questions.

Homework 5.

I. Exercises from PtMW:

Chapter 6, pp. 129, 130. ##3 (a,b,e); 4(a,b).

Chapter 13, pp. 365, 366. #1ai, 1bi.

II. Show that the algebra Form is not a Boolean algebra.

Student answers:

Student Solution 1. A very good set of answers to all of the questions.

Student Solution 2. Another very good set of answers to all of the questions.

(Others got these all or almost all right too. And the answers are mostly also in PtMW.)
