The purpose of this instrument is to document the developmental performance level of the STEP Pre-Practicum Candidate at the end of his/her pre-practicum experience (the mid-point of the Secondary Teacher Education Program). The results are used in conjunction with portfolio evidence submitted by the Pre-Practicum candidate to determine the candidate’s readiness to proceed to the Student Teaching Practicum. While Pre-Practicum Candidates should strive towards “Target” for each of the areas listed, we recognize that learning to teach is a developmental process, and that STEP Candidates will each have unique paths. STEP identifies the minimum acceptable performance level for passing and completing the Pre-Practicum as “Level 3” in the majority of the competency areas. Pre-Practicum candidates are responsible for rating themselves in each area, conferencing with the Pre-Practicum sponsoring teacher for his/her initials in each area, and for collecting portfolio documents listed next to each area in conjunction with this completed, signed rubric. Each of the competency areas are linked to the Massachusetts’ Professional Standards for Beginning Teachers, build on previous work in STEP, and lay the groundwork for the Student Teaching Practicum. If you have any questions regarding this rubric, please contact the appropriate subject matter advisor or the Director of STEP Student Teaching, Marge Magouirk Colbert at (413) 545-1113 or at magouirk@educ.umass.edu

Levels of Performance

Level 1 (unacceptable): The candidate needs substantially more work through lengthened Pre-Practicum, more courses, and continued work with a sponsoring teacher.

Level 2 (unacceptable): The candidate can benefit from more work with a mentor teacher in this area. Unless there are a great number of Level 2 ratings on the rubric, this level does not block the movement to the full practicum, but identifies areas for significant further work with a mentor.

Level 3 (acceptable): The candidate demonstrates the principle to the degree necessary to make the classroom function. May lack fluidness of use, but the result is effective at a Pre-Practicum level. More work in this area is necessary during Student Teaching.

Level 4 (acceptable): The candidate exhibits the competency most of the time in a high quality manner expected of a Pre-Practicum Candidate. More work in this area will be helpful in Student Teaching.

Level 5 (target): The candidate exhibits the competency consistently and in a very high quality manner.
