

Week 4

September 27-October 1, 2010

- ___ 1. pp 28-50 in course notes, 2. *Introduction to Probability* ([pdf, 57 pp](#))
- ___ 2. (*recommended*) pp 51-57 in course notes, 2. *Introduction to Probability* ([pdf, 57 pp](#))
- ___ 3. Reading in text (Daniel WW) Chapter 12. Section.7, “*Relative Risk, Odds, Ratio, and the Mantel-Haenszel Statistic*” pp 634-641 *Note – For now, do NOT worry about the discussion of confidence interval estimation nor the Mantel-Haenszel statistic. Focus on the overview of observational studies and the discussion of the relative risk and odds ratio.*
- ___ 4. Problems #3-6 of Homework 2. *Introduction to Probability* **due 10-4-10**
([questions](#)) ([solutions](#))
- ___ 5. Visit topic page, [2. Introduction to Probability](#)
- ___ 6. (*optional*) Practice Quiz for 2. *Introduction to Probability* ([questions](#)) ([solutions](#))

Optional, at your request – Some additional links providing an introduction to probability

- ___ StatTrek AP Statistics Tutorial, Probability ([html](#))
- ___ StatTrek AP Statistics Tutorial, Rules of Probability ([html](#))
