

NSF Project Reading List¹

As of August 5, 2002

Abbreviations	for:
BHP	articles in Barbara [H. Partee]'s possession, can be borrowed/copied on request.
BMOSC	
MJS	articles in Peggy [MJSpeas]'s possession, can be borrowed/copied on request.
BOX	articles in NSF Project readings box [located in the Node]
C***	articles to be copied to *** [wildcard for location/addressee]
NODE	articles on shelf in the Node [Linguistics Department library]
L830	articles in distributed in L830 (Fall 00).

Note Sept 2000: If it turns out to be desirable to set up a separate box for Ling 830, we certainly can. In the meantime, the NSF Project Box = the Ling 830 (fall 2000) Box. Papers particularly important for Ling 830 are (or will be in later editions) boldfaced.

Note 2: Some articles are listed here only because they show up in bibliography of one of BHP and VB's articles on genitives/possessives; their relevance in that case may be somewhat indirect.

¹ This list started out as the Reading List for Ling 830: Seminar on Syntax and Semantics of Genitives/Possessives. This work is supported by the National Science Foundation under Grant No. BCS-9905748 to Barbara H. Partee, "Integration of Lexical and Compositional Semantics: Genitives in English and Russian". Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation. Thanks to Ji-Yung Kim and Ana Arregui for help in compiling and annotating this list. Additions have come from Peggy Speas and from various colleagues and students in Amherst and Moscow and elsewhere. The list is still incomplete (and probably always will be); further additions are solicited.
