Experimental manipulations, effects on
change, 408-409
Experimental method, 114-115
Experimentator bias, see Reactive effects
External belief, 370
External validity, see Validity
Facilitating factors, 462-465, 488-508
Factor analysis, 75, 95-96
Fear appeals, 497-508
Field studies, 117-118
Forced compliance, 41, 44, 431-437, 439,
444; see also Behavior, under in-
sufficient justification
Functional measurement, 240-241
Functions of attitude, see Attitude
theories, functional approach
Gain-loss effect, 274-276
Generalizability of research finding, see
Validity, internal and external
Graph theory, 36
Group decision, 411
Guttman scale, 2, 79-82, 87-88, 108-
110, 364-365; see also Scalogram
analysis
Habit, 6, 371
Hedonic relevance, 206-297
Imbalance, see Inconsistency
Impact effects, 390
Implicit theories of personality, 150-152
Impression formation, see Trait inferences
Improvisation in role playing, 421-426
Incentive effects, 429-431, 437-439
Inconsistency, see Inconsistency
Inconsistency, 33-34, 37-39, 41, 44, 50-51, 176, 233-234
Indifference, 103
Inference, 14, 45, 49; see also Beliefs, inferential
Information, 13, 14, 389, 421, 426-429
Information integration, 167, 235-233, 469-470
adding versus averaging, 229-235
Instrumentality-value model, 31-32
Integration theory, see Information integration
Intention, and behavior, 368-381
change of, 400-405
content of, 29
Definition of, 12, 13
effects of race versus belief similarity on, 320-324
effects of social norms on, 328
effects of target and behavior on, 319-326
formation of, 16, 288-334
individual differences in, 327-328
interpersonal, 293-296
prediction of, 301-314
relation to attitude, 59
single-response measures of, 58-59
specificity of, 292-298, 369-370, 374-375
stability of, 370-371, 375-379
strength of, 59, 61
Internal validity, see Validity
Interpersonal attraction, see Attraction
Interpersonal contact, 415-417
Interpersonal judgment scale, 156, 235-256
Interrater replication procedure, 794
Involvement, 481-482
Judgments, 14
Knowledge, 12, 13
Known group comparison, 63, 90, 92
Latitudes of acceptance, rejection, and noncommitment, 105, 456, 458
Learning theories, 21-30, 50-52
Lens model, 166-167
Likelihood-conservatism, 7
Likelihood ratio, 183-184, 188-189
Linear scale, 2, 79-82, 88, 108-110, 355-357, 364-165; see also Summated ratings scale
Liking relation, 33-34, 40-41
Linear model, 158-160, 162-164, 236-240
Linearity index, 367-368
Linearity of single-act criteria, 366-368
Logical consistency model, 176-179, 392-394
Manipulation checks, 135
Manipulation of message content, 472-473, 493-508
Meaning, change in, 245-247
dimensions of, 76-77, 151-152
measurement of, 73-75
mediating response, 26
Measurement techniques, 53-106; see also names of specific methods
behavioral and unobtrusive measures, 3, 95
bipolar scales, 55, 58
diagnostic techniques, 89-94
physiological measures, 3, 94
single-response measures, 2, 54-59, 08, 114
standard attitude scaling, 59-89
unipolar scales, 55
Mediated generalization, 25
Mere exposure effect, see attitude, 281-283
Message, 452, 455, 458-460, 463
Minitheories of attraction, 271-277
Moral, 1, 13
Motivation to comply, 16, 120-122,
299, 306-307
Motive, 6, 7
Multidimensional scaling, 95-98
Multiple-clad criterion, 353
Multiple cue learning, 165-167
Multivariate-multimethod matrix, 111-113

Normative belief, see Belief
Novelty, 176

Operant conditioning, see Conditioning
Operating characteristic, see Trace line
Oclusion, 1, 2, 4, 11-13, 61
Order effects, 244-253, 258-260, 495
Other variables explanation of low attitude-behavior relations, 343-351
Own categories procedure, 71, 91, 104-105

Panacea exposure, 421
Perceived freedom, 44, 46, 196-200, 436
Persuasive communicaion, 451-509
Plausibility technique, 91-92
Potency dimension, 76-77
Potential amount of change, 467
Prejudice, 1, 11, 13, 63, 289, 328-329
Primary effect, 138, 146, 148, 244
Primary belief, 389
Principles of change, 406-409
Probability dimension, 12-13, 28, 109-110; see also Beliefs, strength, Intention, strength of
Probability of acceptance, 461-462
Probability models, 49, 174-188
Proportional control, 298-301
Proximal belief, 389, 413-414, 460
Proximal probability, see Proximal belief

Race versus belief similarity, see Intention, effects of race versus belief similarity on
Reactive effect, 117, 119-122
Recall of contingencies, 142-143
of message content, 179-182
Receiver of a message, 455, 463
Receptivity toward a message, 138, 148

Reception of a message, 452-453, 476, 481, 497, 499
Redusiveness, 176, 233-234
Refrain influence, 494-495
Reinforcement, 24-25, 367-270, 430-431, 437-439
Reliability, 107-108, 113-114
Repeatability criterion, 353
Research in the attitude area, 1, 512-519
conflicting findings, 5, 5, 110-111, 123-125, 435, 478, 488, 501
Response; see also Behavior
rejection, 21, 27, 28, 29
implies, 24, 25, 26, 28, 29, 73
mediating, 24, 25, 26, 27
Response bias, 108
Reward magnitude, 41, 44, 194-195, 437-439
Role playing, 2, 427-429

Salience; see Belief, salience of
Satisfaction, 1, 11
Scale value, 68, 70
Scalogram analysis, 2, 64-68
Sentiment, 13, 31, 35
Sentiment relation, see Liking relation
Serial position effect, 136-137
Set-size effect, 241-242
Single-act criterion, 352
Social distance scale, 63-64
Soviet judgment theory, 456-457
Sour court belief, 460
Sound of a communication, 452, 455, 462-463
Source probability; see Source belief
Spearman-Brown prophecy formula, 113
Spearman's correction for attenuation, 113
Specificity of target behavior, situation, time; see Intention, specificity of
Stereotypes, 1, 13
Subjective expected utility (SEU) model, 30-31
578 Subject Index

Subjective norm, 16, 381-306, 314-315, 401-402
Summated ratings scale, 71-73
Summation model, 27-30, 229-235; see also Information integration
Supportive belief, 466, 470-471
Synergistic reasoning, 170-174

Target belief, 389, 413-414
Thurstone scale, 2, 79-82, 88, 104-105, 149-150, 364-365; see also Equal-appearing interval scale
Trade-off, 65-66, 70-72, 71-81, 86, 92, 364
Trait, 6, 7
Trait inferences, 145-155
Two-factor model of persuasion, 452-456

Uncertainty, 100-102; see also Confidence
Unidimensional scale, 67-68, 486
Uniqueness of behavioral outcomes, 200

Unit relation, 33-34
Utility, 11, 30

Valence, 13
Validity, convergent and discriminant, 109-113
effects of reliability on, 113-114
internal and external, 114-116
measurement, 63, 89-90, 94, 107-114

Value, 2, 4, 11, 13, 30, 31; see also Evaluation

Verbal learning & memory, 135-139
Voting, 1, 375-376

Weighted averaging model, see Averaging model

Wishful thinking, 158, 393

Yale communication research program, 451-457, 512-512, 518-519

Yielding, 453, 476, 491-492, 497
