

A Note on the Orthography for Yalálag Zapotec Used by Ortiz Chino

In his book *Hoichi Be'nnen Blallake Nhay*, Yuri Manolo Ortiz Chino uses an orthography for Yalálag Zapotec very similar to the one adopted in class, except for two key changes:

- (1) The single letter 'n' seems to be used for lenis alveolar nasal /n/ *only post-vocalically*.
- (2) In non-post-vocalic positions, he uses 'nh' to represent the lenis alveolar nasal /n/
